ABOUT HUMCO

Humco, founded in 1872, is a diversified global pharmaceutical company. Humco is focused on developing, manufacturing and commercializing innovative pharmaceuticals and high-quality over-the-counter (OTC) medicines for patients around the world.

With headquarters in Austin, TX, Humco serves over 45,000 pharmacies through its Pharmaceutical Segment and its Consumer OTC Products franchise. The Company is anchored by its leading non-sterile compounding delivery vehicles, including topical and transdermal creams, syrups and suspensions. Humco also serves consumers through its established and diverse Consumer OTC Products business of over 160 items with product placement in all major drug, food, and mass-market retail chains, along with independent, locally owned pharmacies.

Humco's leading team of professionals have strong expertise ranging from product development to commercialization in the Company's state-of-the-art FDA registered, cGMP compliant facilities.

With a presence in approximately 20 countries, Humco is committed to working with pharmacists, physicians, health-care providers and patients to deliver innovative and meaningful treatments that help people around the world live longer, healthier lives.

Humco proudly manufactures and distributes a diversified line of pharmaceutical products. We focus on developing products that offer dynamic solutions and help to fulfill unmet patient and pharmacist needs.

Humco has a vast portfolio of pharmaceuticals that aid in imperative solutions across several key therapeutic categories including:

- Pain Management
- Infectious Disease
- Hormone Replacement Therapy
- Wound Care
- Dermatology and Aesthetics

Humco has established a leading reputation for developing, manufacturing, and commercializing a diversified line of non-sterile topical and oral pharmaceutical compounding delivery vehicles. Our patented compounding products range from ready-to-use topical creams and gels to oral syrups and suspensions. Our products are designed to provide an optimal delivery system for a variety of formulations based on the desired route of administration and therapeutic intent. Humco's delivery vehicles are tailored to meet pharmacist's non-sterile compounding needs while reducing the compounding preparation time and improving therapeutic outcome for patients.

HRT HEAVY™

HRT BASE WITH UP TO 180 DAY BUD

HRT Heavy compounding base is a non-oily white cream base. It provides deep skin penetration. It is specifically designed for male and female hormone restoration formulas and has a low to moderate API carrying capacity.

HRT HEAVY™ BENEFITS:

- Sustained skin penetration
- Paraben-free
- Natural ingredients
- Cosmetically elegant
- Ideal for intra-vaginal preparations
- Validated stability of up to 180 days for a variety of hormones and hormone combinations.

HRT HEAVY™ PROPERTIES	
pH	7.5
Specific Gravity	1.04 g/mL
Viscosity	165,000 cps
Physical Format	Cream
Color	White
Typical Applications	Hormone Replacement

More BUDs can be found at
<https://www.fagronacademy.us/bud-studies/hrt-heavy>

Active Ingredient	BUD
Estriol 0.5–20 mg/g	180 days
Estradiol 0.5–20 mg/g	180 days
Estrone 1–10 mg/g	180 days
Progesterone 1–200 mg/g	180 days
Testosterone 1–200 mg/g	180 days
Low: Estriol 0.5 mg, Estradiol 0.5 mg, Progesterone 5 mg/g Polypropylene (Topi-Click) High: Estriol 10mg, Estradiol 20 mg, Progesterone 200 mg/g	180 days

SALT STABLE LS ADVANCED™

SaltStable LS Advaced™ is a scientifically advanced, extremely durable, robust and versatile transdermal cream base formulated with a silogel that provides a smooth, silky, dry feel upon application. Designed for all classes of active ingredients, irrespective of salt form, it exhibits superior API carrying capacity of multiple actives in one formulation. SaltStable LS Advanced demonstrates excellent emulsion stability without the need for added stabilizers.

SALT STABLE LS ADVANCED™ BENEFITS:

- Increased stability with a high percent of APIs & multiple actives
- Validated in vitro transdermal vehicle up to 8 APIs in one formulation
- Less sticky & less tacky because of silogel (silicone-based organogel)
- Off-white, cosmetically elegant cream
- Time saving: ready-to-use base, no need for wetting or adding thickening agents
- Ideal for formulations with multiple actives & high API loads

SALT STABLE LS ADVANCED™ PROPERTIES

pH	7.1 – 7.5
Specific Gravity	0.9 g/mL
Viscosity	800,000–1,2000,000 cps
Physical Format	Cream
Color	White
Typical Applications	Pain Management, Dermatology

SALT STABLE LO™

SaltStable LO™ is a light beige, heavy water-in-oil cream emulsion built around a lecithin component that delivers chemical penetration comparable to a pluronic lecithin organogel (PLO). It allows topical medications to reach systemic circulation and local target areas efficiently, while remaining creamier, less sticky, and more elegant than traditional PLO. The system stays stable under refrigeration and with ionic substances, supporting an API load of up to 30%.

SALT STABLE LO™ BENEFITS:

- Enables topical medications to reach systemic circulation as well as localized target areas with efficiency.
- The lecithin component provides chemical penetration on par with a pluronic lecithin organogel.
- Incorporates high levels of ionic substances without compromising system stability.
- Washes easily from the skin, unlike petroleum-based preparations.
- Used across dermatology, pain management, and veterinary compounding.

SALT STABLE LO™ PROPERTIES	
pH	7.0
Specific Gravity	1.0 g/mL
Viscosity	200,000– 400,000 cps
Physical Format	Cream
Color	Light Beige
Typical Applications	Pain Management, Dermatology

FLAVOR BLEND™ (DYE-FREE)

FLAVOR BLEND™ (DYE-FREE) BENEFITS:

Flavor Blend™ (Dye-Free) is uniquely formulated flavored oral suspending vehicle designed to simplify the extemporaneous compounding process of oral suspensions. It combines the flavoring agents of Flavor Sweet™ (Dye-Free) and the suspending agents of Flavor Plus™, along with preservatives and an anti-foam agent to provide an easy preparation of smooth, elegant oral suspensions.

- Easy to use
- White to light pink liquid blend with a cherry flavor
- pH: 4.5–5.0
- Recommended use: hydrophilic, acid-stable and hydrophobic actives
- Incorporate virtually all medicated powders or crushed tablets
- Ideal for pediatric and geriatric preparations

FLAVOR PLUS™

FLAVOR PLUS™ BENEFITS:

Flavor Plus™ is a unique flavor-free, aqueous based suspending vehicle used to simplify the process of compounding oral non-soluble suspensions. Flavor Plus™ is buffered to an acidic pH, providing a uniform, consistent and stable oral suspension vehicle.

- Viscous, white, opaque liquid
- Hydrophilic and hydrophobic activities
- Sugar free
- pH: 4.0–4.5
- Specific Gravity: 1.002–1.022 g/mL

FLAVOR SWEET™ (DYE-FREE)

FLAVOR SWEET™ (DYE-FREE) BENEFITS:

Flavor Sweet™ (Dye-Free) is a cherry-flavored syrup. It may be used alone or in conjunction with other agents to give flavor and sweetness while increasing the suspension's physical stability. Flavor Sweet™ (Dye-Free) contains suitable preservatives and is buffered to a slightly acidic pH to provide a dependable and consistent vehicle.

- Compatible with hydrophobic, acid-stable and some hydrophobic actives
- Clear to cloudy liquid with a pleasant cherry almond odor
- pH: 4.0–4.5
- Specific gravity: 1.278–1.304 g/mL

FLAVOR SWEET SF™ (DYE-FREE)

FLAVOR SWEET SF™ (DYE-FREE) BENEFITS:

Flavor Sweet SF™ (Dye-Free) is a sugar free and alcohol-free cherry-flavored syrup. It may be used alone or in conjunction with other agents to give flavor and sweetness while increasing the suspension's physical stability. Flavor Sweet SF™ (Dye-Free) contains suitable preservatives and is buffered to a slightly acidic pH to provide a dependable and consistent vehicle.

- Colorless liquid with pleasant cherry-almond odor
- Compatible with hydrophilic, acid-stable and some hydrophobic actives
- Sugar-free
- pH: 4.0–4.4
- Specific Gravity: 1.053–1.075 g/mL

CHERRY SYRUP (DYE-FREE)

SYRUP VEHICLE

Cherry Syrup is a traditional sugar containing syrup vehicle for compounding oral liquid dosage forms. Ideal for ionic and hydrophilic active pharmaceutical ingredients.

- Allows for quick and easy suspension formulations
- Cherry flavoring already added
- Clear, white to yellow cloudy liquid, characteristic odor
- pH: 3.5–5.2
- Specific gravity: 1.29–1.33 g/mL

RASPBERRY SYRUP

SYRUP VEHICLE

Raspberry Syrup is a traditional oral vehicle for the delivery of various types of water-soluble medications, especially those medications with a bitter or unpleasant sour taste. The syrup has the capacity to hold many different types of water-soluble active ingredients and their salt forms, making it an extremely versatile oral vehicle.

- Pharmaceutically elegant dark red viscous sweetened raspberry flavored syrup
- Soy, gluten, and dairy free
- Taste-masks bitter or sour drugs
- pH 2.5–3.5
- Specific gravity: >1.3 g/mL
- Compatible with a wide variety of water-soluble active ingredients for oral delivery

SIMPLE SYRUP NF

SYRUP VEHICLE

Simple Syrup is a traditional oral vehicle for various types of water-soluble medications, especially those medications with a bitter or unpleasant sour taste. The syrup has the capacity to hold many different types of water-soluble active ingredients and their salt forms, making it an extremely versatile oral vehicle.

- Pharmaceutically elegant clear, light, golden brown colored sweetened syrup
- Soy, gluten, and dairy free
- Taste masks bitter or sour drugs
- pH 2.5–3.5
- Specific gravity: >1.3 g/mL
- Compatible with a wide variety of water-soluble active ingredients for oral delivery

ESSENTIAL OILS

ANISE OIL

Anise Oil is an essential oil with a sweet, licorice-like aroma.

- Nature-made
- Aromatherapy
- Fragrance
- Dropper cap inside
- 100% pure, undiluted

PEPPERMINT OIL

Peppermint Oil is an essential oil with a cool, fresh, minty aroma.

- Nature-made
- Aromatherapy
- Fragrance
- Dropper cap inside
- 100% pure, undiluted

CINNAMON OIL

Cinnamon Oil is an essential oil with a sweet, spicy, warm aroma.

- Nature-made
- Aromatherapy
- Fragrance
- Dropper cap inside
- 100% pure, undiluted

ROSEMARY OIL

Rosemary Oil is an essential oil with a warm, camphorous aroma.

- Nature-made
- Aromatherapy
- Fragrance
- Dropper cap inside
- 100% pure, undiluted

CLOVE OIL

Clove Oil is an essential oil with a sweet, spicy, fruity aroma.

- Nature-made
- Aromatherapy
- Fragrance
- Dropper cap inside
- 100% pure, undiluted

ORANGE OIL

Orange Oil is an essential oil with a fresh orange peel aroma.

- Nature-made
- Aromatherapy
- Fragrance
- Dropper cap inside
- 100% pure, undiluted

EUCALYPTUS OIL

Eucalyptus Oil is an essential oil with an invigorating aroma.

- Nature-made
- Aromatherapy
- Fragrance
- Dropper cap inside
- 100% pure, undiluted

TEA TREE OIL

Tea Tree Oil is an essential oil with a camphorous aroma.

- Nature-made
- Aromatherapy
- Fragrance
- Dropper cap inside
- 100% pure, undiluted

LAVENDER OIL

Lavender Oil is an essential oil with a soothing, floral aroma.

- Nature-made
- Aromatherapy
- Fragrance
- Dropper cap inside
- 100% pure, undiluted

WINTERGREEN OIL, NF

Wintergreen Oil is an essential oil with a wintergreen aroma.

- Fragrance
- Dropper cap inside
- 100% pure, undiluted
- Colorless liquid

OILS

COCONUT OIL

Coconut Oil has a buttery odor.

- Clear yellow liquid at room temperature
- Off-white semi-solid at below 22°C

COD LIVER OIL

Cod Liver Oil has a slightly fishy, but not rancid aroma.

- Medicinal and veterinary
- Thin, oily liquid

The Humco logo is centered on a light green rounded rectangular background. The word "HUMCO" is written in a bold, blue, sans-serif font. It is enclosed within a blue rounded rectangular border. Two solid blue circles are positioned on the green background: one in the bottom-left corner and one in the top-right corner. A small "TM" trademark symbol is located to the right of the word "HUMCO".
